BETTWS LIFE HOUSE SCHOOL

At New Ways to Learn, training is not about showing teachers how to use kit.

It is about empowering teachers to use ICT and digital tools combined with their own expertise and creativity, to transform teaching and learning in the classroom.

New Ways to Learn are a team of fully qualified teachers and senior leaders with decades of classroom and change management experience.

We work with hundreds of schools every year, delivering fun and engaging workshops on the effective use of technology.
