

ONLINE SAFETY

In a world where young people can access anything they want from any device and any location, being proactive about Online Safety is now more important than ever before. Schools and parents need to be equipped with the right skills, knowledge and tools to ensure that young people feel safe and protected at all times. These workshops are about raising awareness and giving schools and families the tools to tackle the challenges head-on and meet the new Online Safety Standards (Ofsted).

The session was very useful, I feel our trainer was very knowledgeable and was able to answer any questions I had.

IT is what we do

ONLINE SAFETY

Getting started is easy. Simply choose a format that suits you, the duration required and then select from the modules below to create your bespoke workshops. When you are ready, give us a call or visit our website and we'll get you booked in.

FORMATS **INSET** **SLT** **ALL STAFF** DURATION **FULL DAY** **HALF DAY**

M1 MATS, SCHOOLS, GOVERNORS, SLT & TEACHERS

This workshop is fully tailored to the needs of a Trust or School and is about building a good awareness of online safety issues, particularly in relation to child protection risks and child safeguarding. The workshop meets the requirements of the new Ofsted framework.

- Insight into the risks for teachers and pupils
- Practical advice on how to keep students and staff safe online
- Ideas for activities to use with children and parents
- Hands-on sessions to develop knowledge and improve awareness

M2 STUDENTS & YOUNG CHILDREN

For students, we offer a range of short 30-60 minute workshops which cover a wide range of themes which can be discussed with the school. These are about getting them hands-on and taking part.

- Assembly – “do you really know who I am?”
- What should you do if you read something upsetting online?
- What pupils should do if they feel unsafe online
- Online gaming & Social Media - the do's and don'ts of keeping safe

M3 PARENTS, CARERS & FAMILIES

This workshop is about giving parents real insights into the challenges and issues faced by children when they are connected to the internet, with plenty of tips and tricks for keeping their children safe.

- Reflect on the potential risks of internet use for children
- Setting up parental controls on home and mobile devices
- Know what to do if your child encounters problems online
- Free tools, tips and tricks to get more control – being proactive

“Our session was very informative and the trainer was extremely knowledgeable.”
