

MICROSOFT in Education

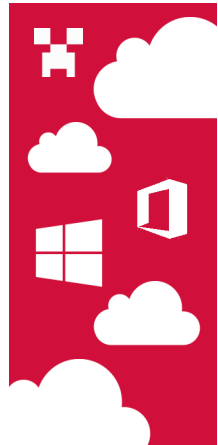

Microsoft in education is more than just Windows and Office, offering a truly innovative set of tools for teachers and students. Beyond the standard productivity tools lies a new world of content creation and collaboration.

Our latest workshops will bring flipped learning, creativity, classroom tools, coding and the best that Microsoft has to offer in education tying in with Microsoft Teacher Academies, the Microsoft Education Community and Microsoft Imagine Academy.

Probably the most worthwhile training we've had in ages.

Ulverley School

Office 365

Imagine Academy

Windows 10

Microsoft Classroom

Minecraft

New Ways to Learn are fully qualified teachers and senior leaders with decades of classroom and change management experience.

We work with hundreds of schools every year delivering fun and engaging workshops on the effective use of technology.

New Ways to Learn
IT is what we do

MICROSOFT in Education

Getting started is easy. Simply choose a format that suits you, the duration required and then select from the modules below to create your bespoke workshops. When you are ready, give us a call or visit our website and we'll get you booked in.

FORMATS **IN-CLASS** **INSET** **VIRTUAL** **1:1** **SMALL GROUP**

DURATION **CPD PLAN** **FULL DAY** **HALF DAY** **TWILIGHT**

Each module below can be designed to last as little as 1 hour and up to a full day. For the best mix, choose up to 6 for a full and varied day. Workshops can be accredited through Microsoft's Teacher Academy.

Build a Collaborative Classroom and increase Productivity using OneNote
