

# INTERACTIVE SOFTWARE

From older Interactive Whiteboards to the latest Interactive Screens, it is always going to be the software that has the potential to transform teaching and learning in the classroom.

These workshops are about refreshing skills, learning about new features and tools and getting well beyond simple annotation and tapping through presentations. We'll work with you to get the most out of your investment in interactive screen technologies.

“The session was really useful and inspiring, giving us lots of ideas! Our trainer was very polite and approachable, making the training fun and interesting.”

IT is what we do

# INTERACTIVE SOFTWARE

Getting started is easy. Simply choose a format that suits you, the duration required and then select from the modules below to create your bespoke workshops. When you are ready, give us a call or visit our website and we'll get you booked in.

FORMATS **IN-CLASS** **INSET** **VIRTUAL** **1:1** **SMALL GROUP**

DURATION **CPD PLAN** **FULL DAY** **HALF DAY** **TWILIGHT**

## M1 SMART NOTEBOOK

The latest version is all about working well beyond just pens and basic annotation tools - including working with 3D models, using ClassLab to create interactive games, quizzes and resources and getting the most out of SMART Exchange and SMART Amp. If you have SMART Tables, we'll ensure you can use hundreds of fun and engaging activities and even start creating your own.

## M2 PROMETHEAN ACTIVINSPIRE & CLASSFLOW

The ActivClassroom comes with some feature-rich tools with a huge range of interactive features, including the ability to create flipped learning resources and even reinforce learning outcomes throughout lessons using inbuilt tools. Add to this the wealth of resources available in ClassFlow, the potential for teaching and learning with interactive boards and screens is better than ever.

## M3 CTOUCH OKTOPUS

As well as the built in Android interactive app on many CTouch screens, the Oktopus software adds a handy collection of interactive features, pens and content creation tools. Time to get really interactive with the screens.

## M4 TIME TO INTERACT!

This very popular workshop gets you interactive using the best web-based tools available for interaction on both interactive and non-interactive screens. Tons of great collaboration tools for teachers to use with students. 100% free apps.

## M5 MICROSOFT OFFICE & INK

Did you know that you can use some great interactive and annotation tools in Microsoft Office? We'll show you where they are, how to customise them and make them useful for teacher-student engagement. You'll never use Office without them again!
